ACKNOWLEDGEMENT

We are very thankful to all those who have helped for preparing this project. First of all we would like to thanks "**Bhakta Kavi Narsinh Mehta University**" and our college "**Shree V.N. Borad Mahila BCA College Joshipura–Junagadh"** who give us an opportunity to prepare a project.

We would like to thanks **Prof.Vikita Mer**, Head of Department in college who provided good environment of project development. We would like to thanks specially faculty Professor **Prof. Rimpal Patoliya** who have always inspired us and has directed us towards the successful completion of this project. Our special thanks to Professor, they have guided to develop this project with proper methods and techniques and with good skills. And Thanks to all who helped for this project development.

Yours Faithfully

(1)Akbari Devangi B.

(2)Paghadal Denisha P.

PREFACE

The theoretical knowledge can be visualized when we implement it because it is the real requirement of Market. Our B.C.A. is unique in itself satisfying almost all the requirement that one requires for a successful IT education. It is always better to show it in deeds rather than words.

According to the syllabus subscribe by "**Bhakta Kavi Narsinh Mehta University "IN 6th** semester, we have developed one project on particular subject. It is a group work. The project work will make us more closely to the real world of information. It will be a little bit training that how to develop website. Project work is the implementations of theory which, we had learn in previous semester.

It is the great moment for us to present this report & we feel really a great pleasure because it is the result of very hard work. This report is basis on the information which is collected by us.

We have taken the care about the project that all given information is true, and the project is smooth running project without any error or problem. We are very apologies if any wrong information is given.

ABSTRACT

Our project bacially Book Club process is work at college and university and beneficial for student. At the front end we have used ASP.net and at the back end SQL server. The project proceeds through a sequence of well-designed forms provided with validation to ensure consistency, reliability and most important correctness of information feed into the database.

Through this project we present system to over come these all problems in this website. Our project is about book club.We provide a many types of books for children,elders and youngstar.in our site the user will Purchase books,update in book quantity,and delete the order also.

INDEX

No	Chapter	Page no
1	Information Gathering	1
	1.1 Project Profile	1
	1.2 Introduction	2
	1.3 Scope	2
	1.4 Objective	2
	1.5 Advantages	3
	1.6 Limitations	3
2	Requirement Analysis	4
	2.1 Tool & Technology	5
	2.2 Hardware & Software Requirement	6
	2.3 User Characteristic	7
3	Project Planning	8
	3.1 Waterfall Model	9-10
